

### **REMARKS**

Applicants respectfully traverse the obviousness-type double patenting rejection of claims 1-6, 8-10, and 13 over claims of copending application number 09/956,184. Nevertheless, applicants, by their undersigned counsel, submit herewith a Terminal Disclaimer, rendering the rejection moot.

The Examiner made no prior art rejection in the September 8, 2004 Office Action, so it appears that the attached Terminal Disclaimer removes the last remaining obstacle to patentability.

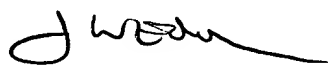

In view of the foregoing remarks, Applicants respectfully request reconsideration and the timely allowance of all of the pending claims.

Please grant any extensions of time required to enter this response and charge any additional required fees to our deposit account 06-0916.

Respectfully submitted,

FINNEGAN, HENDERSON, FARABOW,  
GARRETT & DUNNER, L.L.P.
